

Cutaway: Start of fit-out works

The Cutaway will soon become one of Sydney’s premier cultural facilities and an outstanding venue for events, exhibitions, festivals and installations. The fit-out works will span three levels and offer new event, gallery and education spaces.

What to expect

Construction work at the Cutaway will start from **Friday 3 May 2024**. Infrastructure NSW has appointed FDC Fitout and Construction Pty Ltd to undertake the work. We will work closely together to minimise the impact on the surrounding community.

The following works are scheduled for May 2024:

- Site establishment including constructing site amenities
- Installing the perimeter hoardings and erecting tree protection
- Installing scaffolds and railings
- Constructing and fitting out new security and facilities offices to 1-3 Munn Street
- Demolition works including removing concrete slabs, and demolishing sandstone blocks at the corner of Merriman Street façade, the security and facilities offices, and Cutaway entrance
- Constructing block walls in basement
- Removing and storing of the Wellama screen (to be reinstated once the project is complete).

Hours of work

Works will occur during standard construction hours, as below. Any works outside of these hours will be subject to the relevant authority approvals and communicated with stakeholders in advance.

Day	Hours of work
Monday to Friday	7.00am - 6.00pm. Respite period: High noise emission appliances*, plant and/or machinery will not be used before 9am, between 12pm and 2pm, or after 5pm.
Saturday	8.00am – 5.00pm. Respite period: High noise emission appliances*, plant and/or machinery will not be used before 9am or after 12pm.

*High noise emission appliances include machinery such as piledrivers, rock breakers and hydraulic hammers.

Barangaroo

Minimising community impact

To limit the impact of additional workers in the area and on street parking, workers will be encouraged to use public transport rather than using private vehicles. Project vehicle access and deliveries will be via the Cutaway’s loading dock (Towns Place carpark). There will be intermittent periods of high noise works. Noise and vibration monitors have been installed to monitor the levels during the works.

No access to Cutaway lift at ground level from Friday 3 May 2024

The ground level lift at the Cutaway entrance is located within the construction zone. For public safety, the lift will be closed to the ground floor for the duration of works starting Friday 3 May 2024. Other levels remain open as well as the nearby stairs. Please add extra time to your journey using the map overlaid with accessible and alternative routes. A buggy service is available to help those with accessibility needs travelling between Cutaway entrance (Ground level) to/from Stargazer Lawn (Level 2). Operates daily between 9am – 3pm and leaves Ground level every hour, and quarter past the hour from Level 2.

More information

We are committed to keeping you informed and regular updates will be provided.
