

The Cutaway

The Cutaway is being transformed by the NSW Government into one of Sydney's premier cultural facilities and an outstanding venue for events, exhibitions, festivals, and installations. FDC Construction has been engaged to carry out the fit-out works, which will span three levels and offer new event, gallery, and education spaces.

Works update and 2024 achievements

All perimeter hoardings are up, the sandstone rockface stabilisation works completed, and steelwork deliveries are ongoing with construction progressing well. Since mid-year, 225 tonnes of steel have been lifted to frame the new floor plates, and 518 cubic metres of concrete poured for these slabs. In the basement, infrastructure upgrades are nearly complete, and our focus now shifts to an exciting new phase – interior fit-out.

Accessible buggy update

Access to the ground-level lift at the Cutaway remains unavailable during fit-out works to ensure public safety. Alternative accessible routes are available, and a buggy is also operating for those who need additional support. Starting 23 November 2024 until end February 2025, the buggy service will trial an on-demand model with extended hours for greater flexibility.

Operating hours: 7am to 6pm, daily.

Route: Cutaway entrance (Ground level) to/from Stargazer Lawn (Level 2). The buggy will not make other stops.

Request the buggy: Call 0498 033 066 (allow up to 15 minutes during busy periods).

Accessibility: Fully accessible, with space for wheelchairs and prams.

Hard Work Knows No Gender event

The team were proud to support the NSW Government's *Hard Work Knows No Gender* campaign. They held a 'toolbox talk' with morning tea to promote gender diversity in roles like plumbing, electrics, carpentry, engineering, and project management. The campaign aims to encourage positive worksite behaviours, bring fresh ideas, and address skill shortages.

Barangaroo

Upcoming works

Through to the end of 2024, FDC will continue:

- services install to basement and plant rooms, steel install, and major concrete pours.
- general fit-out within the Cutaway.
- demolition of skylight bays along Merriman Street, involving the use of jackhammers. Noise levels will remain within the council restriction of 75dB, with a respite period from 12pm to 2pm. These works will start daily from 9am.
- night works in the carpark, previously scheduled to finish on 26 November 2024, have been extended and will now continue until **Friday, 29 November 2024**. Works will take place Monday to Friday evenings between 8pm and 5am, finishing Saturday mornings. No work will occur on Saturday or Sunday evenings.

Holiday hours

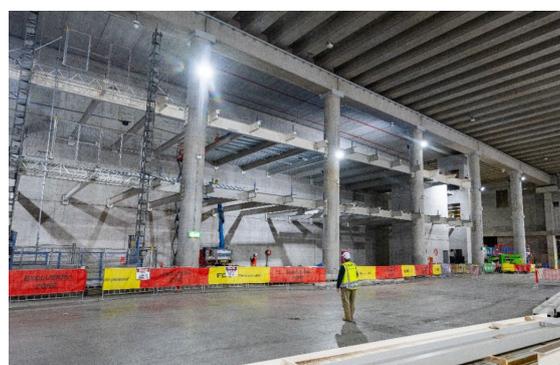

Throughout the upcoming holiday period, construction will pause on all public holidays. Works will otherwise continue weekdays from 7am to 6pm and Saturdays from 8am to 5pm.

Thank you for your patience and cooperation while we complete this work.

The health, safety and wellbeing of the community and our workforce remains our top priority throughout these works. The team is committed to working closely with surrounding neighbours to deliver the project safely, keep the community informed and minimise any potential impacts.
